This optional accessory enables you to convert your DBA Monocular into a high powered long eye relief pocket telescope for improved long range observation.
Size: 112x46mm Weight: 166g

User Instructions

Monoculars can open up a whole range of new and exciting impressions when travelling on holiday, taken to sporting and leisure events or used as part of a hobby such as birdwatching or astronomy. To help you get the best results from your equipment please read the following instructions carefully.

Focusing. To focus at different distances simply rotate the central focusing band until a clear and sharp image is obtained.

Rubber Eyecups are designed to position your eyes correctly to get the maximum comfortable field of view with or without glasses and are often unique to each individual monocular.

Using glasses. Opticron DBA monoculars provide the full field of view when wearing glasses. To maximise field of view with glasses on, turn the eyecup assembly clockwise into the 'down' position - remembering to return it to the upright position if you or anybody else wants to use the instrument without glasses.

Position 1
'Down'
with glasses

Position 2
With or without
glasses

Position 3
'Up'
without glasses

User Instructions

Care and cleaning. Monoculars require little maintenance but occasionally the outside surfaces of the eyepieces and objective lenses will need cleaning. To avoid damaging these surfaces please read the following carefully.

- (i) Gently remove excess dirt and dust using compressed air or blower brush.
Caution: Hard and persistent rubbing of dirty surfaces can cause abrasive scratches on the surface of the glass which may distort viewing.
- (ii) Breathe on exposed glass surface and then wipe with an optical cleaning cloth in a circular motion until the surface is clean again.

Do not attempt to dismantle the instrument as this will invalidate the guarantee.

Cold weather. In cold weather the external lens surfaces may steam up when moving the instrument from cooler air outside to warmer air inside. If this occurs, leave the instrument to stand for a few minutes until any condensation evaporates.

WARNING Never under any circumstances use this monocular to view the Sun. Doing so may cause serious damage to your eyes.

We hope you will get a great deal of pleasure from your new Opticron DBA monocular. If you have any problems or damage in any way our Service Department is on hand to help you.

Guarantee

Please keep this Guarantee Card in a safe place

Model:.....

Serial No: Purchase Date:

Dealer:

Opticron DBA monoculars are of a very high quality both in their performance and construction. We guarantee some parts in these instruments for up to 30 years under the following conditions:

- (i) In the case of defects attributable to faulty processing or materials, we will assume responsibility for the labour and material costs during the first 10 years after purchase. We reserve the right to decide whether defective parts should be repaired or replaced.
- (ii) During the next 20 years we will assume responsibility for material costs only, charging corresponding labour costs.
- (iii) We will accept no liability for damage caused by incorrect use, or for any repairs or actions which have been carried out outside our firm.
- (iv) Parts such as carrying straps, rubber eyecups, rubberised coatings etc. are excluded from the guarantee.

This guarantee is in addition and does not affect your statutory rights.

Registration

If you would like to register your purchase with us please visit www.opticron.co.uk and complete the online Product Registration Form.

Alternatively please telephone us during normal working hours on the numbers given. We will need the product name and serial number (if applicable), purchase date and outlet, your name and postcode.

Registration is voluntary and failure to register will not diminish your rights under the guarantee.

Privacy

Opticron takes your privacy seriously and we do not share personal information with other companies.
